AutomataCore Labs

SEAMLESS EVENT BASED ALERTS

SEBA

Seamless Event Based Alerts

Stop Checking.
Start Delivering.

- Automated XTM monitoring
- Instant email alerts
- Zero manual checking

www.automatacore-labs.com

/ DAILY REALITY

The Daily Reality for Project Managers

Manual Checking
Constantly accessing XTM to check project status

Time Drain
Repetitive manual tasks per project, multiple times daily

Team Bottleneck
PMs become status checkers instead of problem solvers

Less Stress, More Control

Proactive Notifications
Get alerted at the right moment. No more wondering. No more guessing. No more last-minute surprises.

Peace of Mind
Sleep better knowing SEBA is monitoring your projects 24/7.

/ TIME SAVINGS

Extreme Time Savings

90%

Time Saved

on Status Checks

- Automated XTM monitoring every hour (or custom interval)
- Instant email alerts when there is volume to translate
- Zero manual checking required
- Focus on high-value tasks, not status updates

How SEBA Works

1. **Connect**
   Link your XTM* account securely via API
2. **Configure**
   Set monitoring schedule per project (hourly, custom intervals)
3. **Relax**
   SEBA monitors automatically and alerts your team

*It is possible to add adapters for other tools as well.

/ WHO BENEFITS

Who Benefits from SEBA?

Project Managers

- Stop manual XTM checking
- Manage more projects simultaneously
- Get real-time data notifications

Translators & Reviewers

- Know immediately when files are ready
